Efe-osa Jessye Osawaru Oyelade

Stockholm, Sweden | eosawaruoyelade@gmail.com | linkedin.com/in/efe-osa-osawaru-oyelade | https://github.com/efe-osa

Summary

Software Engineer with 7+ years of front-end and full-stack experience, across gaming, healthcare and agriculture, designing and delivering secure web applications, cloud-hosted services and modernising legacy platforms serving 250,000+ users.

Brings deep expertise in Javascript, Typescript, React, Next.js, Node.js, and .NET to building responsive, reusable, and WCAG-compliant component systems, optimising web performance across multi-platform environments and improving developer experiences.

An agile collaborator skilled at translating complex requirements into reliable and performant user-focused solutions that balance technical quality, accessibility, and real business impact.

Skills

Programming Languages: Javascript, TypeScript, C#, SQL, Python, Semantic HTML5/CSS3

Web Technologies: React, Next.js, Redux, React Query, Web Components, Blazor

Tools & Platforms: Node.js, GraphQL, .NET, PostgreSQL, Jest, xUnit, Git, Github Actions, Github Copilot, Cypress, Turbo, AWS, Azure, Docker, Sentry, Grafana, Fluxor

Core Competencies: Technical Ownership & Communication, Agile Development, Accessibility & Performance Optimisation, Internationalisation, DevOps & Testing.

Relevant Work Experience

LeoVegas Group | MGM Resorts International — November 2025 - February 2026

Senior Javascript Engineer (RoW Team)

- Developed a geolocation consent monitoring system with the Data Analytics team, using Google Tag Manager and Imperva, enabling user behaviour tracking across various North American markets.
- Leveraged AI solutions, like GitHub Copilot, feature flagging service and synthetic user data to improve test coverage to 80% across the geolocation consent monitoring system (Jest and RTL), ensuring reliability and GDPR-compliance.

Tools: *Next.js, Typescript, GraphQL, Relay, Jest, React Testing Library (RTL), Turbo, Grafana, LaunchDarkly, Google Tag Manager*

Ringtail Interactive (Now Brink Gaming), Stockholm — January 2023 - January 2025

Software Engineer (Lemur Team)

- Built a responsive Blazor Component Library adopted across 90% of the interface, accelerating development velocity and enforcing WCAG and UI consistency at scale.
- Delivered and optimised cloud-hosted .NET/C# services for scalable SaaS provisioning across environments, implementing secure secrets management via Azure Key Vault to meet production-grade security requirements.
- Led Salesforce API integration for customer journey workflow, establishing a data pipeline between engineering and business teams to improve manual communication handoffs.
- Implemented Flux architecture to improve state predictability and reduce client-side logic complexity across a cloud portal for the flagship product.
- Executed a proof-of-concept with Playwright and xUnit to assess integration ease, tooling, and test coverage requirements.

Tools: *C#, .NET, Blazor, Fluxor, Bootstrap, SQL, SCSS, xUnit, Azure, Docker*

Studio 14, Birmingham — December 2019 - August 2022

Full Stack Developer

- Drove web performance scores from 52% to 98% and supervised W3C accessibility compliance using Axe DevTools while hardening security (XSS/CSRF prevention) across a production-ready application.
- Led the adoption of web component API for a community forum with WordPress CMS integration, reducing development time by 25% and enabling UI component reusability.
- Collaborated with product owners and project managers to scope tickets and optimise Kanban workflows, accelerating delivery timelines by 28%.
- Developed a scalable e-commerce progressive web application (PWA) and an administrative dashboard for managing user engagement and commercial activities for over 100 businesses.

Tools: *JavaScript, TypeScript, React, Redux, NextJS, Web Components, GraphQL, Styled-components, Tailwind CSS, Storybook, SCSS, WordPress CMS, Brotli, Ngnix, AWS, Docker*

Reliance HMO, Abuja
October 2021 - June 2022

Senior Front-End Engineer (Provider Relations Teams)

- Migrated a legacy platform serving 250,000+ users and 4,000+ businesses to a component-based JavaScript architecture, improving application performance and scalability across a high-traffic production environment.
- Built an intuitive WYSIWYG contract review and signing tool using CKEditor, achieving 25% improvement in data accuracy.
- Proactively debugged and resolved erroneous progression in the providers' acquisition tracker, preventing incorrect data from advancing through the workflow and unblocking affected users.
- Collaborated with a cross-functional scrum team to implement a responsive, accessible audit workflow.
- Leveraged valuable feedback from non-technical stakeholders to drive product improvements, ensuring alignment with design specifications and user needs.

Tools: *JavaScript, React, React-Native, PHP/Laravel, Bootstrap, REST API, CKEditor*

EveryFarmer, Abuja
March 2019 - July 2020

Front-End Engineer

- Built an interactive geospatial farm mapping tool using Google Maps API, collaborating with product design and CTO to automate land assessment across 100,000+ service providers and reduce operating expenses by $10,000.
- Introduced static analysis testing and CI/CD pipelines with GitHub Actions, accelerating development pace by 50% and enabling better developer experience.
- Improved system reliability and maintainability by introducing Redux Saga for state management and implementing comprehensive unit and integration tests (Jest, React Testing Library), resulting in an 80% test coverage.

Tools: *JavaScript, React, Redux, Redux-saga, Bootstrap, React-testing-library, Jest, Java RESTful API, Google Maps*

Hotels.ng (HNG Internship)
March 2018 - June 2018

Javascript Intern

- Created a chatbot service built on PHP & used HTML, CSS, and JavaScript to build an interface for conversing; hints like "help" notify users of registered questions.

Tools: *PHP, HTML5, CSS3, Javascript*

Certification

- **GitHub CoPilot**
  Microsoft (September 2025)
- **Fundamental Training in Product Management**
  Tredford (August 2021)
- **Mobile Web development**
  Andela & Google Africa Developer Scholarship (April 2018)

Education

- **M.Sc. Strategic Information Systems Management**
  Stockholm University
- **B.Sc. Business Administration & Management**
  University of Lagos
